MariHacks 02.29 – 03.01

Overview

MariHacks is **Montreal's first and largest 24-hour hackathon for CEGEP and High School students, and it's going virtual for the first time.** Organized by Marianopolis College students, MariHacks will be bringing together from all over the country to prototype their innovative ideas and push their creativity to its **fourth edition** hackathon. We thrive to **foster a learning environment** and introduce new programmers to hackathons.

Why Hackathons

Hackathons give passionate learners the opportunity to **unleash their skills and creativity into building something cool.** With the help of workshops given over the weekend, even complete beginners are able to gain skills and immediately apply them to create something they're truly passionate about.

Why You Should Sponsor Us

Sponsoring MariHacks gives you the opportunity to **create powerful connections with tomorrow's leaders** of the technology industry. The hackathon also provides an amazing platform to **build brand awareness**, by interacting with a large audience of young technology enthusiasts that are looking to learn and to break into the industry.

What We Need

To host a hackathon, we need to provide participants with **digital tools, swag, prizes, entertainment, and more!** In order to ensure the hackers have everything they need to perform, we need the funding to ensure we have everything. All funds that MariHacks receives are invested directly in the **technological tools, marketing, prizes, and anything else** that will improve the hacker experience.

Where You Can Help

Sponsor a Challenge

Define a hackathon category, award a challenge prize to a project in line with your research interests.

Bring Company Engineers to Mentor

Mentorship is an excellent way for your company to interact directly with students throughout the event.

Provide Solutions to Hackers

You think your products can help our hackers create better solutions? Hook them up with an API or other service!

Host a Workshop or a Talk

Host a technical or non-technical workshop during the hackathon. It could be on your company's API, a yoga session, or any service your company provides!

Sponsor a Prize

Reward the hard and amazing work of the MariHacks participants with awesome prizes, such as tech gear, bursaries, office visits, or internships.

Send Company Promotional Items

Whether it be t-shirts, stickers, or water bottles, anything goes! Developing brand recognition with participants is an effective way to promote your company.

Anything helps!

We're open to any other ways you'd like to help us, so feel free to reach out to sponsor@marihacks.com.
